Not in view of the Presidential stands, unless the District of Columbia horsemen have the out-of-door stands in the inaugural parade will eclipse them in numbers and showing. This is the warning sent forth by Chairman N. Harper, of the civic organizations committee, today.

These of the little cities far away from here are planning to send mounted delegations larger than the Washington ones. Mr. Harper declares that civic pride should cause Washingtonians to hasten their applications for mounts.

Weather indications for March 4 denote a fair day, with a temperature not colder than today. The Weather Bureau declared today, in answer to a question from the Senate committee of the inauguration that, as far as the weather is concerned, there are no signs of a disturbance. The bureau, however, declines to make a positive prediction for two weeks ahead.

Oldest Democratic Club.
The oldest Democratic club in the country—the Jefferson Club of Philadelphia—is sending a delegation of 200 or more. Every member has been assessed \$75 for a silk hat, uniform and cane.

Despite the fact that the Senate unanimously passed last night a resolution directing the inaugural committee to set aside 250 seats for press gallery members at prevailing prices in the Lafayette square stands opposite the Presidential party, the correspondents' war continued today and will continue until inaugural day.

Many of the correspondents are refusing to accept the stories prepared by the inaugural press committee, and instead are sending out "knocking" stories prepared by a syndicate of the galleries. Last night's stories dealt with President Droup of the Board of Trade and his effort to obtain a truce in the war. Story tonight will probably deal with the subject of the Avenue stands contract, granted to William Elmer, a District Democratic leader, at \$4,000 concession.

A prominent member of the inaugural committee, who does not care to have his name disclosed, says of the trouble: "I don't think the inaugural committee has acted just right in the matter of seats for newspapermen."

"While I don't think the committee ever should try to never of the newspapermen, or that the newspapermen could have been bought off, it does seem to me that the press should have been given ample accommodations, thus avoiding the present war."

The inaugural committee declares that in giving up the Presidential balcony seats, free of charge, it went farther than it promised at the time the stands were constructed. Chairman Eustis is inclined to believe that the Senate order cannot be fulfilled and will have to go to the courts, inasmuch as seats are practically all assigned.

Building Inspector Hacker today is making an inspection of all stands under construction. The latest stand to be constructed across Thirteenth and a-half street, blocks the thoroughfare which runs past the District building.

Events Will Follow in Quick Succession March 3 and 4

Suffragette parade March 3 starts at 2 o'clock. Tableau at Treasury steps during pageant. Centennial Hall meeting follows the procession. President-elect Wilson and President Taft go to Capitol for induction ceremonies at 10 o'clock March 4. Vice President-elect Marshall takes oath of office and swears in new Senators at noon in Senate chamber. President-elect Wilson sworn in as President at 12:30 o'clock on the outside stands at Capitol. Bellows his inaugural address. Inaugural parade forms near Capitol at 1 o'clock. President Wilson has luncheon at White House with his kinsmen. He reviews the inaugural parade at the Court of Honor at 2 o'clock. President Taft leaves the city about 3 o'clock in the afternoon—Will not review parade with President Wilson, nor have luncheon with him.

fireworks committee, plans for the pyrotechnical display on the Ellipse will be completed. Colonel Cosby and Major Sylvester are co-operating on the matter of roping off the field and protecting the crowds from injury. Frederick Fennell is chairman of a committee having in charge the checking up of all work and plans at the display grounds. Mr. Gans says that the fireworks display will be the most beautiful ever given in Washington. Several startling pieces have been arranged.

The inaugural committee has been notified by the taxicab companies that there will be no increase in rates for the day.

"Window parties" for inauguration are the latest fads in social circles. Prominent people with house guests for inaugural week are buying up the best windows along the line of the inaugural parade, in order that their guests may have a fine view of the marchers, without taking any risk of colds by reason of exposure to the March weather.

Windows and rooms, accommodating large parties, are commanding fancy prices, but society people are getting the "window" party out of their heads, and are to be smarter than any "box party."

Senate Passes Order
To Furnish Seats For
Newspaper Writers

Following the failure of the standing committee of the Senate to furnish the inaugural committee adequate accommodations for the press during the inaugural parade, the Senate today passed a resolution directing the committee to furnish such accommodations.

Senator Sheppard informed the Senate that such a provision would have been inserted in the original bill recognizing the inaugural parade, and providing for the erection of reviewing stands, if representatives of the committee had not insisted on the provision for the newspaper correspondents.

The Senate resolution probably will pass the House today or tomorrow.

Correspondents Peevish.
The text of the resolution is acceptable to the Washington correspondents who asked at the outset merely their rights to purchase 250 seats in the Lafayette Park reviewing stand. The press gallery did not favor the suggestion that the correspondents should be allotted a stand only for the purpose of watching the parade, and the latter number is held to be wholly insufficient to accommodate the newspaper corps.

The Senate resolution reads: "Resolved by the Senate, the House of Representatives and the joint committee of the Senate and House of Representatives in charge of the reviewing stands upon Lafayette Square is hereby directed to provide for the use of the press, the distribution to be under the direction of the standing committee of the Senate."

250 seats directly opposite the stand in which the President will review the inaugural parade, the seats to be sold at the price prevailing in other portions of the same stand."

It Tells a Little Story About a
Prescription That Really
Cures Indigestion

A man of long experience in the advertising business said to the writer in this advertisement on November 22, 1912:

"I can't for the life of me see how your company can make any money on MI-ONA Stomach Tablets. They are too good. They cure too quickly. You can't sell enough of them to pay one person."

Continuing, he said:

"My wife was cured of severe stomach trouble two years ago by taking only one-half a box and has never been bothered a particle since until about two weeks ago when she had another attack."

"Two days' treatment with MI-ONA and she was as well as ever again. MI-ONA is fine for the people who take it, but as I said before, how can you make any money?"—Name on application.

Indigestion is a national disease; many millions of Americans have it. MI-ONA makes money for its owners by curing tens of thousands every year; many thousands of whom have tired of forever buying relievers that do no good unless taken continuously.

MI-ONA Stomach Tablets are compounded from a stomach specialist's favorite prescription. Daily they are banishing terrible stomach agony in the palaces of the rich and in the humble cottages of the poor.

The price, 50 cents, at your druggist for a generous boxful is surely a modest one to pay for certain stomach comfort with a guarantee of money back if they fail to cure.

MI-ONA makers send free trial samples on request, or if not convenient for you to buy of your druggist, will mail a box charges prepaid in receipt of 10 cents. Address Booth's MI-ONA, Dept. B-2, Buffalo, N. Y.

James O'Donnell guarantees MI-ONA.

Surgeon General Blue and Dr.

Up Center Market.

Heavy fire was opened on the rats of Center Market at the weekly meeting of the District branch of the National Civic Federation today, and the help of Surgeon General Rucker Blue and his assistants, Dr. W. C. Rucker, of the Public Health Service, was enlisted in the fight.

Led by Mrs. Archibald Hopkins, the women intend to begin a vigorous crusade among the market men, and those who did not aid in the work of "rat proofing" are likely to find themselves under the weight of something approaching a "boycott," if the plans informally outlined today are put into effect.

We cannot expect the market dealers to undertake improvements which will cost them more money than they can afford," said Mrs. Hopkins, "but at least we can tell upon the establishment of some simple, sanitary and preventive measures. We cannot be regarded as trying to injure other people's business, for the 'rat question' is a civic question, and enters into our daily life."

At the next meeting of the civic federation, Warden Whitaker of the Occoquan Jail will lecture on the conditions among the prisoners there and the need of an inebriate asylum for Washington.
